

INTERDISCIPLINARY HEALTH EDUCATION (MINOR)

<https://chhs.unh.edu/kinesiology/program/minor/interdisciplinary-health-education>

Description

The Interdisciplinary Health Education Minor prepares future professionals to approach health and well-being through a culturally-responsive and trauma-informed lens across multiple dimensions of wellness. Students gain the knowledge and skills to promote, support, and affect behavior change in ways that positively impacts the health and well-being of individuals and communities. Those who complete this minor have the ability to apply their knowledge and skills in settings such as schools, before/after-school programs, clinical settings, community health centers, fitness centers, and/or corporate settings.

Requirements

Academic policies related to Minors.

Code	Title	Credits
